Plant and Soil **160**: 291–294, 1994.

Contents Volume 160 (1994)

Research articles

Hyphal N transport by a vesicular-arbuscular mycorrhizal fungus associated with cucumber grown at three nitrogen levels 1
A. Johansen, I. Jakobsen, E.S. Jensen

Biomass allocation, phosphorus nutrition and vesicular-arbuscular mycorrhizal infection in clones of Yorkshire Fog, *Holcus lanatus* L. (Poaceae) that differ in their phosphate uptake kinetics and tolerance to arsenate 11
A.A. Meharg, J. Bailey, K. Breadmore, M.R. MacNair

Influence of light intensity on the distribution of carbon and consequent effects on mineralization of soil nitrogen in a barley (*Hordeum vulgare* L.)-soil system 21
E. Zagal

Colonisation of wheat by VA-mycorrhizal fungi was found to be higher on a farm managed in an organic manner than on a conventional neighbour 33
M.H. Ryan, G.A. Chilvers, D.C. Dumaresq

A procedure for determining average root length density in row crops by single-site augering 41
P.R. Gajri, V.K. Arora, K. Kumar

Vessel-diameter distribution in roots of grapevines (*Vitis vinifera* L. cv. Shiraz) 49
E. Mapfumo, D. Aspinall, T.W. Hancock

Modification of soil aggregation by watering regime and roots growing through beds of large aggregates 57
S.A. Materechera, J.M. Kirby, A.M. Alston, A.R. Dexter

Nutrient content and photosynthesis of young yellowing Norway spruce trees (*Picea abies* L. Karst.) following calcium and magnesium fertilisation 67
E. Dreyer, J. Fichter, M. Bonneau

Effects of base cation fertilization on the nutrient status, free amino acids and some carbon fractions of the leaves of sugar maple (*Acer saccharum* Marsh.) 79
G. Liu, B. Côté, J.W. Fyles

Nutrient accumulation and translocation in maturing wheat plants grown on waterlogged soil 87
P.A. Stieger, U. Feller

Influence of L-tryptophan and auxins applied to the rhizosphere on the vegetative growth of *Zea mays* L. 97
M. Sarwar, W.T. Frankenberger, Jr.

Leaf water potential – leaf water deficit relationship for ten species of a semiarid grassland community 105
T. Kalapos

The influence of plant growth habit on calcium nutrition of groundnut (*Arachis hypogaea* L.) pods 113
U. Hartmond, J.H. Williams, F. Lenz

Influence of mulching on the pattern of growth and water use by spring wheat and moisture storage on a fine textured soil 119
I.A.M. Yunusa, R.H. Sedgley, K.M.H. Siddique

Prediction of nitrogen availability and rice yield in lowland soils: Nitrogen mineralization parameters 131
I.J. Manguiat, G.B. Mascariña, J.K. Ladha, R.J. Buresh, J. Tallada

The effect of forty years of continuous corn cropping on soil organic matter characteristics 139
A. Saviozzi, R. Levi-Minzi, R. Riffaldi

PCR-amplified 16S rRNA sequence analysis to confirm nodulation of *Datisca cannabina* L. by the endophyte of *Coriaria nepalensis* Wall. 147
M.S. Mirza, W.M. Akkermans, A.D.L. Akkermans

Short communications

Exudation of peroxidase from roots of *Festuca rubra* and its effects on exuded phenolic acids 153
D. Vaughan, M.V. Cheshire, B.G. Ord

Effect of long term cropping on availability of Cu, Mn and Zn in soil following clearing of a boreal forest 157
Y.K. Soon

Research articles

Inorganic and organic P in soil solutions from three upland soils, II: Effect of defoliation and fertilizer application 161
C.A. Shand, A.E.S. Macklon, A.C. Edwards, S. Smith

Rotation of maize with cowpea improves yield and nutrient use of maize compared to maize monocropping in an alfisol in the northern Guinea Savanna of Ghana 171
W.J. Horst, R. Härdter

A simple technique for producing ^{13}C or ^{14}C-labelled fronds of *Lemna gibba* and their use in soil incubation investigations 185
D. Vaughan, M.V. Cheshire, B.G. Ord

Nutrient uptake in eastern deciduous tree seedlings 193
K. Lajtha

The fate of spring applied fertilizer N during the autumn-winter period: Comparison between winter-fallow and green manure cropped soil 201
G.J.M. Vos, I.M.J. Bergevoet, J.C. Védy, J.A. Neyroud

Changes in carbon storage in temperate humic loamy soils after forest clearing and continuous corn cropping in France 215
D. Arrouays, P. Pelissier

Seasonal variations of soil organic matter in a long-term agricultural experiment 225
P. Leinweber, H.-R. Schulten, M. Körschens

Nitrogen release from prunings of legume hedgerow trees in relation to quality of the prunings and incubation method 237
E. Handayanto, G. Cadisch, K.E. Giller

The influence of vesicular-arbuscular mycorrhizal fungi on the nitrogen fixation of nursery-grown Ethiopian acacias estimated by the ^{15}N natural abundance method 249
A. Michelsen, J.I. Sprent

Mineralization of labeled N from cowpea [*Vigna unguiculata* (L.) Walp.] plant parts at two growth stages in sandy soil 259
K. Franzluebbers, R.W. Weaver, A.S.R. Juo

The effect of root damage caused by simulated white grub attack on the growth, yield and water-use of groundnut plants 267
J.A. Wightman, H.B. Brier, G.C. Wright

Short communications

Biological control of rice sheath blight in India: Lack of correlation between chitinase production by bacterial antagonists and sheath blight suppression 277
K.V. Thara, S.S. Gnanamanickam

A bioassay of the availability of residual ^{15}N fertilizer eight years after application to a forest soil in interior British Columbia 281
C.M. Preston, D.J. Mead
